Project Name	Heart Disease Analysis with Tableau
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Template

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes to prepare
- 1 hour to collaborate
- 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

- Team gathering**
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.
- Set the goal**
Think about the problem you'll be focusing on solving in the brainstorming session.
- Learn how to use the facilitation tools**
Use the Facilitation Superpowers to run a happy and productive session.

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM

How might we How might we use interactive data visualization to identify heart disease risk factors and support better healthcare decisions?

Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
No idea is too small or too big at this stage. Quantity leads to quality ideas!

Person 1

- How might we reduce patient waiting time in hospitals?
- How might we improve appointment scheduling accuracy?
- How might we make patient records more secure and accessible?
- How might we enhance communication between doctors and patients?

Person 2

- How might we use data analytics to predict disease outbreaks?
- How might we improve early detection of chronic diseases?
- How might we personalize treatment plans using patient data?
- How might we use AI to assist doctors in diagnosis?

Person 3

- How might we make healthcare services more affordable for everyone?
- How might we increase awareness about preventive healthcare?
- How might we promote healthy lifestyle habits among young people?
- How might we improve rural access to specialized healthcare?

Person 4

- How might we streamline hospital operations and reduce costs?
- How might we optimize bed management in hospitals?
- How might we improve inventory management of medical supplies?
- How might we enhance staff productivity through digital solutions?

Person 5

- How might we integrate wearable devices for real-time monitoring?
- How might we improve emergency response systems?
- How might we use telemedicine to reach remote and underserved communities?
- How might we build a digital platform for continuous patient support?

3 Group Ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a semantic-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

TIP
Add more reasons top to stay within the time limit and avoid getting stuck exploring or defending every idea. Embrace variety over value.

Group 1

- Leverage technology and data to improve healthcare delivery
- Use AI and analytics for better diagnosis and prediction
- Integrate digital tools for real-time monitoring and support
- Enhance telemedicine and remote healthcare access

Group 2

- Improve patient experience and communication
- Reduce waiting time and optimize operations
- Increase healthcare awareness and promote healthy lifestyles
- Ensure affordable and accessible healthcare for all

Step-3: Idea Prioritization

4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

TIP
Prioritization can use both impact and effort. Ideas in the upper-left corner are high impact and low effort (the best to start with). Focus there before tackling the high effort ideas.

The matrix is a 2x2 grid with 'Impact' on the y-axis (Low to High) and 'Feasibility' on the x-axis (Low to High). A dashed curve separates the top-left quadrant from the others.

- High Impact, Low Feasibility (Big bets):** Implement AI-powered predictive analytics, Develop a mobile app for patients, Integrate with wearable health devices.
- High Impact, High Feasibility (Quick wins):** Improve appointment booking system, Send automated appointment reminders, Add health tips and awareness content.
- Low Impact, Low Feasibility (Low priority):** Build a custom admin dashboard from scratch, Implement blockchain for data security, Build in-house payment gateway.
- Low Impact, High Feasibility (Fill-ins):** Add patient feedback form, Improve UI of the help section, Add FAQ section.

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

- Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- Export the mural**
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or store in your drive.

Keep moving forward

- Strategy blueprint**
Define the components of a new idea or strategy.
[Open the template →](#)
- Customer experience journey map**
Understand customer needs, motivations, and obstacles for an experience.
[Open the template →](#)
- Strengths, weaknesses, opportunities & threats**
Identify strengths, weaknesses, opportunities, and threats (SWOT) to develop a plan.
[Open the template →](#)
- Action plan**
Outline tasks, owners, timelines, and resources to turn ideas into action.
